"It is a comfort to work with Nancy. We always learn from her. She is diligent both when teaching and coaching. While we do our best to show her that we do a good job, we also trust her that she is with us throughout our journey. When she feels we are ready, she encourages and gives us the lead."

Belgin Boydak, Roche, Turkey

"It was a great pleasure to work with Nancy Biggar during our Situational Leadership II training. We learned many things in different areas from Nancy. Our processes received additional valuable input as she had lived several years in Turkey. We are lucky to have somebody to consult whenever we need any information, help and direction in the areas of leadership, coaching or similar. Thanks Nancy!"
